

Mini Crawlers

Used Mini Crawler Downey - Our various programs for Mobile Crane Operation are intended for skilled operators who need certification or re-certification, and for inexperienced individuals who are seeking their very first work as a crane operator. Business demand for crane operators who are certified is high throughout the nation. Crane operator positions are high due to their high pay. Operators of cranes are among the highest paid of whatever heavy machine operator. Our Crane Training Schools include instruction and training for different mobile cranes. Course subject includes Crane Set-up, Wire Rope, Load Dynamics, Lift Planning, Signaling, Load Charts and Rigging. The program is most suitable for crane riggers, operators and their supervisors. The materials incorporated in the course would comprise a manual and lots of useful handouts. The safety guidebook that is illustrated consists of one hundred to two hundred fifty pages, depending on the course, of helpful and important material. Course materials include load exercises and load charts for the crane with which the trainee is working. Hands-On Safety Training would take up more than half of the course curriculum. The practical training part is the most helpful method to developing and improving personal skill levels. Just licensed journeyman crane instructors are selected to teach the courses. Our instructors possess many years of industry experience. For all the course we offer, we can include optional testing mechanisms to customize your training. A skills test is generally administered for programs which include H.O.S.T. Trainees will be graded and tested. Certification Training Programs: Fixed and Swing Cab Mobile Hydraulic Cranes; Lattice Boom/Crawler Cranes; Articulated Boom/ Knuckleboom Cranes; Rigging / Signalperson Certification and Training; Testing & Certification; and In-The-Seat Training. Industry standards of practice are changing as new business requirements surface. There are constant updates to regulations and legislation. Improvements in equipment and technology continue to be made. Industry data analysis and collection identify trends which are changing. Members maintain the advantage of managing their certifications and training programs. Mobile device alerts keep members ahead of workplace and personal safety news.
